

Weekly Outside Listening Homework Requirements

Your Spanish homework is to listen to 30 minutes of Spanish a week and write down any and all words that you recognize or want to learn. Listening to Spanish will help you get accustomed to listening to authentic Spanish and familiarizing yourself with the many different Spanish accents. Listening can also improve your accent and pronunciation.

You should not multi-task during this assignment. You should just be listening/watching and writing down the words you recognize or want to learn.

Throughout the trimester there will be 10 Outside (of class) 30 minute listening assignments that you will be required to do. You will report this homework each Monday.
